Khairul Anuar Aliasak

Full Stack and Mobile Developer

rekabytes.dev@gmail.com | +60 16-625 0587 | reka-bytes.my

Professional Summary

Full stack and mobile developer building web applications, cross-platform apps and API integrations with React, Next.js, Node.js, React Native and Expo. Experience includes stock research apps, subscriptions, e-commerce and public APIs, with a background in graphic design and user-focused interfaces.

Technical Skills

Languages: JavaScript, TypeScript, HTML, CSS, PHP, Python, Rust
Web and mobile: React, Next.js, Node.js, React Native, Expo
APIs and data: REST APIs, tRPC, MySQL, Redis, Supabase, Model Context Protocol (MCP)
Delivery and integrations: Docker, pnpm, Turborepo, Logto, RevenueCat, OTA updates
Design: Figma, Adobe Photoshop, Adobe Illustrator

Professional Experience

Mobile Apps Developer

Lattice IO | Apr 2025 - May 2026 | trylattice.io

- Built the TryLattice stock research and portfolio-tracking app for iOS and Android using React Native and Expo in a shared codebase.
- Implemented a tRPC-powered monorepo for type-safe communication between the mobile frontend and backend.
- Integrated Logto authentication and callback flows, plus RevenueCat in-app purchases and subscription management.
- Delivered over-the-air updates with React Native Stallion and interactive stock charts with React Native Chart Kit.

Freelance Full Stack Developer

PixelForge-GG | Jan 2026 - Mar 2026

- Developed a Malaysian esports platform with Discord-like community features using Next.js and a Node.js backend.
- Set up a pnpm and Turborepo monorepo with build caching, and containerized services with Docker for deployment on KVM VPS infrastructure.

Freelance API Developer

techapi.my | Dec 2025 - Feb 2026

- Built a public REST API for calorie and nutrition data covering Malaysian foods and halal products.
- Implemented Redis response caching with 24-hour TTLs to reduce database requests and manage external API rate limits.

Freelance Full Stack Developer

Oral Hous Empire | Apr 2025 - Jul 2025

- Developed an oral-care e-commerce platform comprising a web storefront, admin dashboard, and iOS and Android applications.
- Built React and TypeScript interfaces with a Node.js backend; integrated Supabase database and authentication services and deployed the web application via Netlify.
- Implemented product catalogs, shopping carts and payment-processing workflows.

Selected Projects

Mokara | Owner and Developer

mokara.my

- Built a team workspace for task and project management, comments, attachments, subtasks and progress tracking.
- Added 41 permission-scoped MCP tools so AI agents can manage workspace tasks, projects and KPIs, and publish or synchronize GitHub issues.
- Integrated remote Streamable HTTP access with OAuth/PKCE authorization and workspace- and repository-scoped permissions.

Hibiscus | AI Agent Terminal Interface

github.com/Rekabytes-Enterprise/hibiscus

- Developed a Rust terminal interface for the Pi coding agent with model switching, resumable sessions, image prompts and in-terminal workflow controls.
- Connected the interface to Pi for model access, authentication, tools, agent runs and session persistence.

TechAPI | Malaysian Food Nutrition API

techapi.my

- Created a food-calorie API and lookup app using official Ministry of Health Malaysia (KKM) nutrition data, including JAKIM-verified halal products.

Reka Bytes | Personal Website and Portfolio

reka-bytes.my

- Developed a personal website showcasing software projects, public repository links, technical articles and contact options for collaboration.
- Built a Git-based publishing workflow using Markdown posts and structured frontmatter, with content published through deployment.

Additional Experience

Graphic Designer

Evomania Sport Sdn Bhd | May 2022 - Dec 2023

Created storyboards, video advertisements, social media assets and event videos; developed and maintained the brand website.

Social Media Designer

Nara Space | Jan 2021 - Feb 2022

Authored and designed visual e-book tutorials explaining Shopee Seller Centre workflows, including order fulfillment and inventory management.

Sublimation Designer

Purecolor Sdn Bhd | Apr 2020 - Jan 2021

Contract graphic design for sublimation printing.

Junior Graphic Designer Intern

Brandhub Malaysia | May 2019 - Mar 2020

Created brand identities, labels, packaging, print and social media assets, and product photography.

Education

Universiti Kuala Lumpur (UniKL)

Bachelor's degree studies in Information Technology with a focus on Software Engineering

Politeknik Sultan Mizan Zainal Abidin | 2019
